Rigour

Rigour, honesty and integrity

- Act with skill and care in all scientific work. Maintain up to date skills and assist their development in others.
- Take steps to prevent corrupt practices and professional misconduct. Declare conflicts of interest.
- Be alert to the ways in which research derives from and affects the work of other people, and respect the rights and reputations of others.

Respect

Respect for life, the law and the public good

- Ensure that your work is lawful and justified.
- Minimise and justify any adverse effect your work may have on people, animals and the natural environment.

Responsibility

Responsible communication: listening and informing

- Seek to discuss the issues that science raises for society.
- Listen to the aspirations and concerns of others.
- Do not knowingly mislead, or allow others to be misled, about scientific matters.
- Present and review scientific evidence, theory or interpretation honestly and accurately.
